Evening Horse Show - New Coliseum Arena.

Shorthorn Sale

STANDARD GUARANTEE ENDORSED BY THE AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

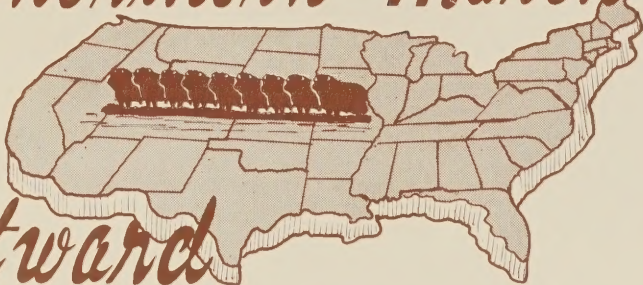

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

The Shorthorn March is Westward

Information For The Buyer

LOCATION: National Western Stock Show, Lamont Sale Pavilion, Stock Yards, Denver, Colorado.

MAIL BIDS: Those unable to be present who desire to take advantage of the buying opportunities in this sale may rest assured that mail or wire bids will be honestly and faithfully executed. Any of the following competent men will be happy to handle buying orders for you. They may be contacted at the addresses listed, or they can be reached in care of Shorthorn Exhibit, Denver, Colorado.

Representing AMERICAN SHORTHORN BREEDERS' ASSOCIATION.

Allan C. Atlason Clem Larson Ted Aegerter Ralph Heinemann
Representing THE SHORTHORN WORLD, 16 South Locust St., Aurora, Illinois.

Merv Aegerter

SHIPPING ARRANGEMENTS: It is the obligation of the consignors and this Association to see that all cattle are properly loaded on cars or trucks as directed by the buyers for immediate shipment. Cattle will be at buyer's risk as soon as bid off, but every precaution will be taken to see that animals arrive in sound and healthy condition. **BE SURE TO LEAVE DEFINITE SHIPPING INSTRUCTIONS WITH THE SALE CLERK.**

LIABILITY: Although every possible precaution will be exercised to protect the safety and comfort of guests of the show and sale, neither this Association, nor its representatives, nor the auctioneers or clerks, can assume any liability for accidents.

TERMS: The terms of the sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction.

INSURANCE: Coverage may be secured effective at the time of sale.

GUARANTEE: All animals sold in this sale will be backed by the Standard Guarantee endorsed by the American Shorthorn Breeders' Association, which is printed in this catalog.

AUCTIONEERS: C. D. Swaffar, Tulsa, Oklahoma.

HOTEL HEADQUARTERS: Albany Hotel, Denver, Colorado. Write direct for reservations, mentioning this National Shorthorn Show and Sale.

Allan C. Atlason, Secretary
AMERICAN SHORTHORN BREEDERS'
ASSOCIATION
7 Dexter Park Avenue,
Chicago 9, Illinois

Nearly every Breeder can Use a Better Bull

Take a good look at your last crop of calves. Are they all you are seeking? Take a good look at your cow herd. Analyze their weak points . . . then select a bull showing strong characteristics in the direction you want to move toward improvement of your calves.

The bulls offered in this sale have been selected because they have nearly everything the purebred breeder needs to improve his calf crop. Consignors to this Sale have entered outstanding individuals from select show strings to give buyers the ultimate in type and quality.

ASA V. CLARK & SONS

MALE

FAIR MEADOWS SENSATION 2750-637 L-42

Red, calved March 5, 1953. Bred by Paul Webb, Jr., Walla Walla, Washington. Owned by Asa V. Clark & Sons, Pullman, Washington.

<i>Sire</i> BEAUFORT BOG OAK 2642818 Red,	Cruggleton Pentland Firth (361513) Red, A. J. Marshall	{ Cruggleton Braemar (344560) Red, A. J. Marshall Princess Beatrice (263105) RWM, A. J. Marshall

M. R. GLOSTER MAX - If you want "weight-for-age" in your calves here is a bull that should be heading your herd. His sire was Grand Champion at the Colorado, Topeka, Hutchinson and Oklahoma City State Fairs and second in a strong class at the 1953 American Royal.

IN CONNECTION WITH NATIONAL

The Scales Tell the Story:

More and more commercial cattlemen are turning to Shorthorn bulls to increase market weights in calves and yearlings. They are learning they get more than hybrid vigor in a Shorthorn . . . and that it's cheaper to breed the pounds on than feed them on.

The most prepotent traits in bulls are weight, gains, and feed efficiency . . . all traits in which the SHORTHORN has no equal. At the same time, cattlemen are opening their eyes to the vast numbers of blocky beef-type Shorthorn bulls being produced today . . . bulls that are siring Grand Champion carloads and individual show steers all over the land. On the range or in the feedlot, Shorthorns are practical, built-for-profit cattle. Their outstanding attributes of scale, weight for age and wide adaptability, combined with economical first cost, make them the logical choice for safe and profitable livestock investment. They thrive under the feed, forage, and climatic conditions of every livestock section of the country.

SHORTHORNS OUTGAIN all other beef breeds on grass, roughage or grain . . . and OUTWEIGH all other beef breeds at any age. Yes, scale and rugged constitutions, more mother's milk, gentler dispositions and more efficient grazing and feeding traits enable them to put on beef pounds faster. They are brought to heavier weaning weights and this robust start carries over into the feedlot.

The practical answer to the producer's problem is a SHORTHORN bull. He will INCREASE calf crops 10 to 15 percent; INCREASE weaning weights 50 to 100 pounds; INCREASE yearling weights 100 to 200 pounds; INCREASE milk in replacement cows; INCREASE resistance to pinkeye and all other diseases; and INCREASE profit by returning higher prices for market weights.

When you breed or feed SHORTHORNS you get more beef per acre. To increase your cattle profits join the march to the Reds, Whites, and Roans. For purebred breeding, for feeding, for sires in range and farm herd improvement, and for cross-breeding, Shorthorns fill the most exacting needs.

W L WARRANT - Marellbar Farms have won some of the highest honors at leading shows with calves of Allardice. This bull is young, but gives every promise of developing into a good useful sire.

Reserve Grand Champion Steer Over all Breeds International Live Stock Show

The superior beef making ability of Shorthorns was again strongly emphasized in the steer classes at the 1955 International. The steers shown were a fitting testimonial to the breed's claim to greater weight-for-age and showed the tremendous progress made in eliminating coarseness and wastefulness.

Three of the six all breed age Champions, as well as the Reserve Grand Champion steer, comprised the final Shorthorn winnings at the 1955 International.

Pictured is U. K. SPOTLIGHT - fitted and exhibited by the University of Kentucky, Lexington, Kentucky. The steer was bred by Luther K. Rice, Paris, Kentucky and donated to the University of Kentucky. A flashy roan, he is sired by Kirkforthar Endeavour. Weighing 1155 pounds he was a perfect smooth block of beef, carrying great thickness from the rib all the way back. He sold for \$1.50 per lb. to the Neilsen Restaurants of Chicago.

He dressed out 65.8 percent.

BELDALE GIPSY BRIDE - Is from one of the best families in the Studer herd. BRED AUGUST 28, 1955 to BELDALE MERCURY 2833691, the bull entered in this sale.

"We want our weaners to weigh"

A quotation from T. B. Hawkins, Hawkins Cattle Co., Hollister, California.

"By moving our cattle North in May and South in October we can pasture them the year around with no supplemental feed of any kind, except in those very rare years when we have a short rainfall. Most of our aged cows culled from the breeding herd go to market without ever having eaten anything in their lives but grass."

"Having made the decision to market our calves at weaning time, the next question was what kind of cattle would return us the largest dividend per cow. We did not arrive at the answer to that in a day - in fact, we spent over two years investigating every angle before coming to the conclusion that it was SHORTHORNS!"

"We started replacing our other bulls with Shorthorns in 1950. When we sold our steer calves at weaning time in October 1950, they averaged 598 pounds - those calves were all sired by bulls of another breed. In October 1951 our average was 619 pounds - about one-fourth of those calves were sired by Shorthorn bulls. In 1952 approximately half of our calves were sired by Shorthorn bulls and their average weight in October was 648 pounds. In October 1953 three-fourths of the calves were by Shorthorn bulls and of these approximately 20% were second cross. These calves averaged 672 pounds."

"Yes, we want our weaners to 'weigh' and through the splendid cooperation of a fine lot of Shorthorn bulls that is exactly what they are doing."

---	--

SCHANER FLORENCE 4TH - Is a double-bred Royal Leader and one of the best heifers by the 98th. We never intended to part with her, but have her out here with the show herd and consented to put her in the sale. She is from the same family as the McCone's 1954 Congress Champion. SELLS OPEN. Calhood Vaccinated.

It takes purebred sires backed by a succession of noteworthy ancestors to produce the kind of Grand Champion Shorthorn steers that have gone into stiff competition to win over those produced by top sires of all beef breeds . . . to effect a comeback for Shorthorns as brilliant as any in livestock history. More Champion steers and carloads are possible because the breed has such a wealth of good bulls capable of producing outstanding prospects . . . but more good steers are needed. Every bull in this sale has been chosen with an eye to market trends and embodies the type, quality, conformation and individuality needed

Be sure to inspect the carloads and pens of 3 and 5 Shorthorn Bulls in the Stock Yards. They will be for sale at private treaty and will not be sold through this sale. Good bulls are available from this source.

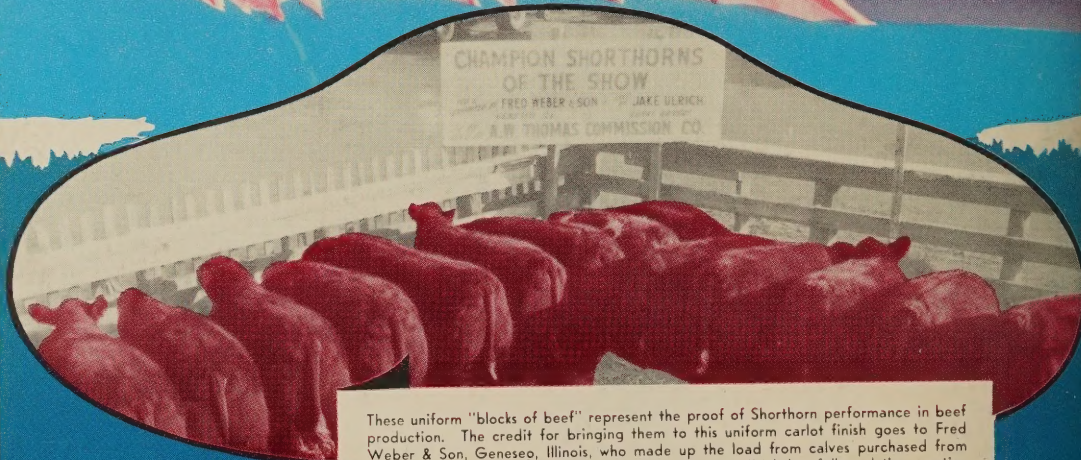

GRAND CHAMPION CARLOAD FEEDER CALVES—Josef Winkler, Castle Rock, Colorado, for the eighth time in National Western Stock Show history won the feeder cattle Grand Championship, with 20 of the most uniform Shorthorn calves he has ever exhibited. 120 loads of steer and heifer calves and yearlings competed in 1955. While the Winkler calves were the most uniform this firm has ever shown, there was one quality that made them stand out over all other loads and that was "thickness". The judges just couldn't overlook the extra spread over the broad backs of these soggy, reds and roans that also seemed to carry more substance and uniform ruggedness and scale than other former Winkler champions. They sold for \$55.00 cwt., to Henry Steele, Montgomery, Ill., and averaged 503 pounds - as usual carrying a decided weight advantage over the other breed champions.

THE PUREBRED BREEDER IS THE TOOL MAKER OF THE BEEF INDUSTRY

The ultimate end of all beef cattle is, directly or indirectly, the market. Purebred breeders, commercial producers and cattle feeders are all interested in improvement in the breeding of cattle, since higher returns at the market naturally accrue to those who have done the best job of selecting better-bred cattle. The breeder of registered cattle plays the major role in improvement of beef type. He must conduct a conscientious and studied breeding program that will produce the type, conformation, thick and smooth fleshing and early maturity desired by the commercial cattleman.

The Shorthorn is a beef factory without equal, that is built for better beef at maximum efficiency, and the present-day purebred breeder is making blue-prints for even greater improvements in his output for years to come.

These uniform "blocks of beef" represent the proof of Shorthorn performance in beef production. The credit for bringing them to this uniform carlot finish goes to Fred Weber & Son, Geneseo, Illinois, who made up the load from calves purchased from the good herd of Jacob Ulrich, Luray, Kansas. Mr. Ulrich has followed the practice of using top Shorthorn bulls - and here again is proof that it pays.
